Address: 1 St. Anne's Road

Website: acmassagewellness.com

Acumassage Wellness Centre is a busy multi disciplinary health clinic looking to hire a motivated and professional physiotherapist. The ideal candidate will be a self starter who is able to work with minimal supervision.

We are looking for a physiotherapist to join our clinic which currently employees a Dr of Chinese medicine and Acupuncture, massage therapists, and a Reflexologist.

We would like to round out our clinic with the addition of a physiotherapist.

We feel that the timing is right for our clinic to be able to offer Physiotherapy to our already large client base. This would give the opportunity for the right person to step into an already busy clinic thus supplying our clients access to another modality so that their treatment care can be maximized for a quicker recovery time. It will allow our clients the availability to have the care and treatment of a full and more rounded group of professionals to aid in their speedy recovery.

The clinic works on a competitive split rate. We take pride in providing a clean friendly professional working environment for the comfort of not only the client but for the therapists as well. There is a receptionist computerized billing program and a POS machine for the comfort of the staff and clients. All insurances are billed by the clinic for the clients to ease the hassle of insurance paperwork and provides a quick and easy payment for the client.

Any interested applicants can submit their Resume and proper credentials proof of diploma on line to xyw2012@yahoo.ca, or in person to the front desk at the clinic located at 1 St. Anne's road.

Thank you in advance for the opportunity to meet you.
