

Full Time Pelvic Floor Physiotherapist

Donna Sarna Physiotherapy and Rehabilitation is currently seeking a full time physiotherapist with skill set in Women's Health, including pelvic floor, pre and post natal health and osteoporosis.

This position includes an established, mixed caseload including private and some WCB and MPI clientele. The opportunity to teach fitness classes, including Pilates, Strength and Conditioning or other, based upon personal interest, is available. We are looking for a team player with good communication skills as cross referral is common within our clinic. Therapists with 1-2 years experience in pelvic floor health will be given first consideration, however less experienced therapists are encouraged to apply. Post graduate manual therapy courses and acupuncture are an asset, but not a necessity.

We provide competitive compensation and offer a comprehensive benefit package. We also offer a mentorship program and are committed to ongoing professional development through regular in-house educational sessions. In addition we provide support in pursuing continuing education.

Donna Sarna Physiotherapy and Rehabilitation is a growing clinic which is centrally located at 102-897 Corydon Avenue in Winnipeg, Manitoba. Our talented team of physiotherapists, massage therapists and fitness professionals are dedicated to providing holistic treatments for a wide range of conditions and symptoms for people of all ages. Our private treatment rooms provide a safe retreat for our patients to relax and de-stress. We provide a variety of treatment options including orthopedic, pelvic floor therapy for both women and men, one on one reformer, TMJ, craniosacral therapy/myofascial release, as well as fascial release for the organ system (visceral), treatment of lymphedema and pediatrics as well as massage therapy. We also offer fitness classes on a daily basis including Pilates, Strength and Conditioning, Myofascial Stretch as well as Therapeutic Yoga classes.

Please forward resumes to info@dsphysio.com or fax to (204)452-3316.
