

TUXEDO PHYSIOTHERAPY CLINIC

We are looking for a dynamic, well-motivated physiotherapist with a client-centred approach to care to join our team. We believe in empowering patients to actively engage in their rehab and to live their best lives, no matter the situation they find themselves in.

Our clinic is well-equipped with a Stott Pilates Rehab Reformer/Cadillac Tower, small weights, balance boards, stability balls, foam rolls, etc. and a full complement of electrotherapy equipment. We have two private rooms and an additional four curtained treatment spaces, fabulous front desk and back room support and a very well experienced massage therapist working on our team.

Our caseload is primarily sports and orthopaedic in nature with the recent addition of a chronic pain and neurological caseload through our collaboration with Movement For Life Physiotherapy (Lisa Mills-Hutton).

We are happy to explore the addition of further “special interest” categories to our treatment portfolio.....TMJ, Concussion, Vestibular, Upper Limb/Hand, Women’s Health, Geriatrics, Pelvic Floor, Paediatric Rehab, Home Based Treatment....and we are happy to nurture a budding interest in any of these areas.

We are equally interested in speaking to you if sports and orthopaedics is your passion. A background in Pilates, Yoga, Functional Movement Systems, Acupuncture and Manual Therapy are a definite asset. Most important is an avid interest in perpetual learning and a willingness to be clearly present as you carry on the daily task of guiding our clients towards their personal wellness goals.

Please apply in confidence to tuxedophysiotherapy@gmail.com or contact Anna DiMarco directly at (204) 299-7066 (personal cellular number) to arrange for a meeting or to obtain further information.
