

Certificate Course

NTA™ Certificate Course in the Contemporary Practice of NDT for the Management of Adults with Stroke and Brain Injury

COURSE DESCRIPTION

NTA™ Certificate courses are postgraduate continuing education courses offered to Physical Therapists, Occupational Therapists, and Speech-Language Pathologists who work with adults or children with movement disorders associated with neuromuscular impairments.

The Certificate Course core curriculum includes lectures informed by current evidence, hands-on lab work in which participants practice problem solving and application of intervention strategies, treatment demonstrations by instructors, and mentored clinical practice in which participants work with a variety of clients.

Instruction in the NDT philosophy as an interdisciplinary team approach assures that all therapists learn to address each client using a holistic approach. All therapists, regardless of discipline, cover the same course material. Throughout the course, they assess and treat clients with neuromuscular disorders to gain a thorough understanding of each individual's underlying posture and movement impairments and the resultant functional consequences. This provides them with the opportunity to understand the "whole" client and to ensure wise handling skills are implemented.

COURSE OBJECTIVES

Upon completion of this certificate course the participants will be able to:

- Analyze effective and ineffective components of posture and movement.
- Identify the relationships between function, posture and movement components, and system integrities and impairments in individuals with neuromuscular disorders.
- Demonstrate effective NDT clinical reasoning & problem-solving, using assessment findings to develop realistic treatment plans.
- Develop and implement wise therapeutic handling strategies that result in changes in the client, including: improved sensorimotor performance, achievement of functional goals, and enhanced participation in meaningful activities.

Focus: Adult
CE Hours: 112.00

DATES

Part 1: April 10-13, 2025

Part 2: May 8-11, 2025

Part 3: May 22-25, 2025

Part 4: June 26-29, 2025

Thurs - Sun; 8:00 am - 4:30 pm

LOCATION

771 McDermot Ave
Bannatyne Campus
University of Manitoba
Winnipeg, MB

INSTRUCTORS

Teresa Siebold, PT, CI, C/NDT

Cathy Hazzard, PT, C/NDT

Sherry Rock, OT, C/NDT

AUDIENCE

OT, PT, SLP

APPLICATION FEE

\$25.00 (non-refundable)

COST

NTA member: \$3,000 CAD

Non-NTA member: \$3,225 CAD

Participants must meet attendance requirements, successfully achieve course objectives, perform effective assessments, develop appropriate intervention strategies, plan and implement effective treatment plans, and successfully pass the standardized final exam and competencies. Once accomplished, an NDTA Certificate of Completion is awarded.

REGISTRATION PROCEDURE AND DEADLINE

Questions? Please contact Shelley Sargent at ☎️ : 431-294-2411
Email or mail registration form to: ssargent@hsc.mb.ca

Space is limited and will be first come, first serve.
Payment is required to reserve your spot.
Registration deadline is Saturday, March 1, 2025
Tuition includes snacks and refreshments. Lunch not provided.

METHOD OF PAYMENT

We accept cheques or payment by credit card.
