Thursday December 3
6:00pm-8:00pm (Online)

Saturday December 5
8:00am-4:00pm (In-Person)
Sunday December 6
8:00am-4:00pm (In-Person)

Multiple Choice Exam

7 day window to complete exam in one sitting of 4 hours

** in addition to the course times listed above, there will be at least 2-4 hours of at-home self study assigned PRIOR to each course weekend.

Registration deadlines are in place to ensure the integrity of the course being offered. Therefore, a \$50 late fee will be applied to any student who wishes to register once the registration deadline date has passed.

ATTENDANCE FOR ALL CLASS TIME IS MANDATORY. IF YOU CANNOT ATTEND THIS COURSE IN ITS ENTIRETY YOU ARE NOT ELIGIBLE TO REGISTER & CANNOT BE GIVEN CREDIT FOR THE COURSE.

Course Cost

\$1706.25 (\$1625 + \$81.25 GST) (Orthopaedic Division Member)

\$1942.50 (\$1850 + \$92.50 GST) (CPA Member)

\$2073.75 (\$1975 + \$98.75 GST) (Non-Member)

Registration will be refunded in full if the course is cancelled by the participant more than a month prior to the start of the course, less a \$25.00 admin fee.

A \$250.00 cancellation fee applies if you cancel your registration within a month of the start of the course. Once the course has started no refund can be issued.

The Orthopaedic Division reserves the right to cancel a course if minimum course registration is not met. If a course is cancelled by the Orthopaedic Division, there is no penalty to the student and student course fees will be fully refunded. The Orthopaedic Division will endeavor to notify all students that a course is cancelled two weeks prior to the course start date.

Pre-Requisites

** Proof of completion of Level 1 is required to begin the course. Please be able to produce the certificate upon request, but you do not need to bring to class.

Registration with a Canadian physiotherapy regulatory college is required to attend this course.

The Orthopaedic Division welcomes graduates of entry-to-practice physiotherapy programs who are beginning their professional development journey through the AIM Education Program. Graduates who are progressing through the registration and licensure process may be eligible to enroll in Level 2 courses, provided they hold a registration category that permits physiotherapy practice within their jurisdiction and meet all applicable regulatory requirements.

As licensure pathways vary across Canada and continue to evolve following the implementation of the Canadian Physiotherapy Examination (CPTE), applicants are responsible for confirming their eligibility with their provincial physiotherapy regulator.

Full, unrestricted licensure is required before proceeding to Level 3 courses.

Out-Of-Province Students are responsible for determining their own eligibility and securing temporary licensure for course attendance in a province other than their residence/clinical practice province. Please consult the PT College website of the province you are visiting to learn about requirements (they vary from province to province).

We suggest not making non-refundable travel arrangements until after the course has been fully confirmed as running – you will be notified shortly after registration closes (3 weeks from the start of the course).

The New Orthopaedic Division e-Manuals (online) are the required reference materials for this course. The fee for the e-Manuals is a ONE-TIME fee of \$125.00+tax which grants you access to the clinical techniques manual for the highest Level of course you have participated in, as well as the e-Theory Manual. Your access to the “living” updated versions of the manuals will remain in place as long as you participate in an AIM Level Course every two years. If two years lapse since your last course with us, you will still have access to the manuals, but not their future updated versions.

If you have never paid the \$125.00 fee you will be provided with instructions to complete the purchase about 2-4 weeks before the start of the course.

If you have paid the \$125.00 previously (including at Level 1) your access/permissions will automatically be upgraded about 2-4 weeks before the start of the course.

There are also recommended text books along with the new e-manuals. You can start looking to purchase the following texts to compliment:

Moore's Clinically Oriented Anatomy 8th edition – Keith Moore, Arthur Dailey, Anne Agur. Wolters Kluwer/Lippincott Williams and Wilkins 2014.

Grieve's Modern Musculoskeletal Physiotherapy 4th Edition – Gwen Jull, Ann Moore, Deborah Falla, Jeremy Lewis, Christopher McCarthy, Michele Stirling. Elsevier 2015.

Differential Diagnosis for Physical Therapists 5th edition – Catherine Goodman, Teresa Snyder, Elsevier 2013.
