- Online Material Review: 19.5 hours
- Examinations/Assignments: 3.5 hours

Intramuscular Dry Needling (IDN) can be an effective and useful adjunct to an overall treatment program for our orthopaedic and neuro-orthopaedic patients. This course is designed to cover dry needling techniques for the whole body for varied musculoskeletal conditions. Learning will take place through a combination of synchronous online sessions and in person practical sessions. These sessions will prepare you for the application and integration of dry needling to your caseload. The IDN course curriculum aligns with the current requirements outlined by the College of Physiotherapists of Manitoba (CPM) for dry needling rostering eligibility in Manitoba. Upon successful completion of the course, Manitoba registrants will need to apply to CPM's dry needling roster as outlined by CPM's Practice Direction in order to incorporate use of dry needling into physiotherapy practice. This course is only open to Physiotherapists.

Prerequisites:

- Be licensed to practice Physiotherapy in their respective province of Canada and be in good standing. If the candidate is outside of the province where the course is being held they must attain temporary licensure in that province to participate in the course.
- Proof of malpractice insurance from the Canadian Physiotherapy Association or equivalent carrier.
- Recommended but not required:
 - Completion of Level 2 upper and lower courses from the Diploma of Manipulative Therapy AIM

Fees & Registration : The participant fee for the upcoming course is \$2500 CAD plus HST (total

\$2825.00). This includes all course materials, demonstrations, practical sessions, and examinations. Lunch and snacks are provided. Registration deadline January 15, 2027.

Instructors:

- Scott Whitmore, B.Sc.PT, MCIsc.PT (Dip.Manip.PT, FCAMPT, CGIMS, CIDN)
- Sarah Bleichert, BMR-PT, MCIsc.PT (FCAMPT, CAFCI, CGTTP, CIDN)
