

# Pan Am Physiotherapy Fellowship

Looking to advance your skills in orthopaedic and sport physiotherapy? Join our Fellowship Program at the Pan Am Clinic! Our comprehensive learning experience and practical approach will prepare you to be a leader in the field.

## Pan Am Rehabilitation Services

- Team of 18 experienced physiotherapists with a variety of skill sets
- Fully integrated with Sport Medicine and Orthopaedic Clinics at Pan Am Clinic
- Practice areas include cancer rehabilitation, lymphedema management, running and gait assessment, foot and ankle therapy, hand therapy, post-surgical rehabilitation, manual therapy, exercise prescription, return to sport testing and more

## Pan Am Clinic Foundation

- Home to world-class researchers, investigating risk factors, treatment options, and patient quality of life
- Enables continuous learning for practitioners to provide patients access to leading edge treatments
- Dedicated to solving health limitations through clinical innovations

## Why Choose Us

Large multi-disciplinary orthopaedic clinic environment with the ability to follow patients from first visit through rehabilitation

Direct interaction with sport medicine physicians, orthopaedic surgeons, experienced physiotherapists, and more

Integrated fellowship experience with sports medicine, emergency, and orthopaedic streams to foster diverse learning and critical thinking

Dedicated world-class research centre and team
