ABOUT US:

We don't mean to brag... but we think we've built a pretty special clinic. ;)

River East Physiotherapy is a busy, physiotherapist-owned practice packed full of good people who genuinely care about what they do.

And right now... we're hiring a physiotherapist!

Now, before you roll your eyes and think "yeah yeah, every clinic says they've got a great culture..."

Here's what our ACTUAL team says about working here:

> "It's all about the people. We have always been able to recruit and surround ourselves with a great group of caring and passionate individuals. It makes our work environment a fun and exciting place to be. It's also a very clean, efficient and extremely well-organized facility."
>
> **– Don Charbonneau, BMR-PT**

> *"I appreciate having good people around to discuss challenging cases and to bounce ideas off."*
>
> **– Julia McDaniels, BMR-PT**

> "Working at River East Physiotherapy over the years has been great! I started as a new grad, and in large part from the help of my colleagues, I have been able to learn and develop my professional skills and become a confident and experienced physiotherapist. The support staff are also great to work with, and help make my day run smoothly."
>
> **– Ryan Pang, MPT**

> *"I love being part of a team that truly puts patients first. Everyone works together to help patients feel comfortable, supported, and confident throughout their recovery."*
>
> **– Ranjeet Jass, BPT**

> “What I like best about working at River East Physiotherapy is the positive environment and the way the clinic operates. I previously worked there as a physiotherapy assistant and really appreciated the supportive team and efficient systems in place. The experience left a strong impression on me, and I always hoped to return one day as a physiotherapist.”
>
> **– Khushpal Brar, MSc., BPT**

> *"I love the work environment. The physios and massage therapists at River East Physiotherapy are driven by curiosity and a desire to help their clients get better. I'm always learning when I'm at work, and that's a great privilege."*
>
> **– Kris Seo, MPT**

> "I am proud of working in a clinic where we, employees and the patients, matter, and it is not only about money. River East Physiotherapy and its employees have created a lovely place to work."
>
> **– Alex de Vries, MSc, BPT, retired from River East Physiotherapy 2026**

> *"I really enjoyed working with the team at River East, from the reception staff to the therapists. Everybody is ready to go out of their way to make sure patients' needs are being met. I think this creates a great environment for both the patient and the clinician."*
>
> **– Ryan Corkal, MPT, River East Physiotherapy alumnus**

WHY PEOPLE LOVE WORKING HERE

We've got a bustling practice.

We've got a seriously friendly team.

We've got hundreds and hundreds of 5-star Google reviews from happy patients.

We've got a full-time Clinic Manager helping keep everything running smoothly.

And unlike a lot of clinics... we're REALLY organised.

(Seriously. Our systems are VERY good.)

This isn't one of those places where everyone is stressed, running behind, and trying to survive the day with caffeine and blind optimism.

We work hard to make the clinic a great place to be — for both patients AND staff.

WHAT KIND OF PERSON ARE WE LOOKING FOR?

You'll probably fit in pretty well if:

- You genuinely care about people
- You like being around positive, passionate clinicians
- You enjoy learning from others, and you're happy to share your knowledge too
- You prefer to work as part of a team
- You want to work somewhere supportive and well-run
- You take pride in your work
- You're the kind of person who notices the little things that make a patient experience better

PLUS:

You probably read the staff testimonials above and thought:

"Okay... this place actually sounds lovely."

;)

THIS IS NOT YOUR TYPICAL CLINIC JOB

At River East Physiotherapy, we're proud to be physiotherapist-owned – for over 41 years.

That means we understand what clinicians actually need to do their best work.

Support.

Good systems.

A strong team around them.

People to bounce ideas off.

A clinic that values patient-centered care and an excellent patient experience.

Not just numbers.

> And because we've built such a strong support structure around the therapists, people are able to focus on what they do best — helping patients get to their goals.

WHAT YOUR DAY MIGHT LOOK LIKE:

7:15am:	Arrive at a clean, organised clinic where things are already running smoothly.
7:30am:	First patient of the day. She's grateful you're there for her before she has to go to work.
9:30am:	Chat in the staff room with another physio about a tricky case.
10:45am:	Your support team makes an admin problem disappear like magic – before you even know it's there.
11:30am:	Lunch break in the staff room. A colleague shares chocolates they received from a happy patient.
12:10pm:	Afternoon patients.
2:30pm:	Exchange ideas with colleagues who genuinely enjoy what they do.
3:00pm:	Help another person move better, feel better and get their confidence back.
3:15pm:	Review and sign all your chart notes and reports, that our AI Scribe drafted for you.
3:30pm:	Finish the day knowing you actually made a difference in the world.

(Obviously every day and every schedule is different... but you get the idea!)

NEXT STEP:

If you're interested in joining the team, we'd love to hear from you.
