

Vestibular Position Available

Part time position for a physiotherapist with training in vestibular rehabilitation. Option to grow the vestibular position into full time role, or start a full-time position with a blended vestibular, orthopedic and/or neurological caseload.

We offer you:

- An existing vestibular caseload.
- No admin work. We manage all reception, appointments, invoicing, and billing for you.
- Slick charting software (we use [Jane App](#)) that lets you chart from home and check your schedule on-the-go.
- Private assessment rooms.
- Vestibular assessment equipment, including goggles, vestibular system models.
- Excellent remuneration package, including a group health benefits option.
- Customized mentorship plans and professional development funding.
- Career advancement options.
- A highly organized and clean working environment.
- Recently renovated facilities.
- A well-established name in the community and with physicians - we have been operating since 1985 and have a wide referral base.

In addition to vestibular clients, our clinic's current caseload includes private, orthopedic, sports injuries, neurological rehabilitation, Worker's Compensation Board, and Manitoba Public Insurance (automobile insurance) clients. We have a growing Parkinson's Disease program – creating an excellent opportunity for a physiotherapist with a keen interest in neurological rehab and leadership.

Our Clinic:

We have a bustling practice and a team of friendly, dedicated professionals. Our operations are highly organized – we have a full time Clinic Manager, and we are continuously improving our systems and process to support our physiotherapists and patients.

Here's what our physiotherapists say about working at River East Physiotherapy:

- "It's all about the people. We have always been able to recruit and surround ourselves with a great group of caring and passionate individuals. It makes our work environment a fun and exciting place to be. It's also a very clean, efficient and extremely well-organized facility." – *Don Charbonneau, BMR-PT*
- "I really enjoy the team that we have at River East, from our reception staff to our therapists. Everybody is ready to go out of their way to make sure patients' needs are being met. I think this creates a great environment for both the patient and the clinician." – *Ryan Corkal, MPT*
- "We have the best patients and the best staff! Hands down!" – *Ashley Gusberti, BMR-PT.*
- "The organization of the clinics is fantastic, and the team is tons of fun! Plus, everyone's always willing to share their expertise with me, which I value so much." – *Tami Prado, MSc. PT*

Living in Winnipeg:

Winnipeg is booming with arts & cultural activity – world-class theatre, dance, live music, nightlife, and more. Our clinics are located in North Kildonan, a calm neighbourhood with tree-lined streets and many charming homes. Housing and the cost of living is remarkably affordable compared to other major Canadian cities.

What our physiotherapists say about Winnipeg:

- "The summers are amazing – it gets really hot and there are so many lakes and beaches nearby. I'm talking white sand beaches and crystal clear water. Winnipeg is so underrated – when I came here last summer I was blown away by the quality of theatre, dance and live music." – *Andrea Grant, MScPT*
- "I love the people of Winnipeg and I love our lakes and outdoors – in both the summer and the winter." – *Ryan Corkal, MPT*
- "I love how multicultural Winnipeg is, and I appreciate this most when trying out different restaurants throughout the city. Also, the Winnipeg Jets!" – *Ryan Pang, MPT*

Contact us

Both experienced clinicians and recent graduates are welcome to apply.
