

Physiotherapist — Rehabilitation & Manual Therapy Clinic

Symmetry Health | Winnipeg, MB

Symmetry Health is looking for an experienced and collaborative **Physiotherapist** to join our growing rehabilitation-focused clinic.

We are an established massage therapy and rehabilitation clinic with a strong emphasis on assessment, manual therapy, movement, and individualized treatment. We are looking for a physiotherapist who is interested in working alongside Registered Massage Therapists and contributing to a collaborative model of care.

The Role

This position would be an excellent fit for a physiotherapist with approximately **3–5 years of clinical experience** who is confident working independently but enjoys being part of a multidisciplinary environment.

Our ideal candidate approaches rehabilitation thoughtfully and understands the value of combining physiotherapy, therapeutic exercise, manual therapy, and complementary treatment approaches when appropriate.

You will have the opportunity to build and manage your own physiotherapy caseload while working within an established clinic and existing client community.

We're Looking For Someone Who:

- Has approximately **3–5 years of physiotherapy experience**
- Is registered and in good standing with the **College of Physiotherapists of Manitoba**
- Holds appropriate professional liability insurance
- Has strong assessment, clinical reasoning, and rehabilitation skills
- Is comfortable treating a broad range of musculoskeletal conditions
- Values manual therapy and movement-based rehabilitation
- Enjoys collaborating with Registered Massage Therapists and other rehabilitation professionals
- Communicates clearly with both clients and colleagues
- Is comfortable developing treatment plans and progressing clients through rehabilitation
- Is interested in building long-term therapeutic relationships rather than providing high-volume, protocol-driven care
- Brings professionalism, curiosity, and a collaborative mindset to the clinic

Experience or additional training in **manual therapy, sports rehabilitation, chronic pain, orthopedic rehabilitation, return-to-activity programming, or therapeutic exercise** would be an asset.

About Symmetry Health

Symmetry Health is a massage therapy and rehabilitation clinic focused on helping clients understand their bodies, restore function, and return to the activities that matter to them.

Our approach emphasizes individualized care rather than one-size-fits-all treatment. Our therapists work with clients experiencing acute and chronic musculoskeletal conditions, mobility restrictions, pain, and functional limitations.

As the clinic continues to grow, we are expanding beyond massage therapy to create a broader rehabilitation team where practitioners can collaborate while maintaining their own professional scope and clinical judgment.

What We Offer

- An established clinic environment and existing client base
- Opportunities for internal referrals and collaborative care
- Administrative and clinic infrastructure
- Online booking and practice-management support
- A professional treatment environment
- Flexibility in building your schedule and caseload
- Opportunity to help shape the physiotherapy side of a growing rehabilitation practice
- A clinic culture that values clinical reasoning, professional autonomy, and quality of care

Position Details

Position: Physiotherapist

Location: Symmetry Health — Winnipeg, Manitoba

Experience: Approximately 3–5 years preferred

Schedule: Flexible / To be discussed

Compensation: To be discussed based on experience and working arrangement

We are particularly interested in finding the **right long-term clinical fit** rather than simply filling a treatment room.

If you are an experienced physiotherapist who enjoys collaborative rehabilitation and would like the opportunity to help develop physiotherapy services within an established massage rehabilitation clinic, we would love to hear from you.

Please submit your **resume and a brief introduction** outlining your clinical background, areas of interest, and what you are looking for in your next practice environment.
