

We are looking for a physiotherapist to join our team on a permanent part-time/full-time basis.

With more and more clients looking for mobile physiotherapy, we are excited to fill this position quickly and welcome all registered physiotherapists to apply.

HTS serves a wide range of clients in all stages of life. The focus will always be improving quality of life for our clients. The job is unique as it requires exceptional time management skills, and the ability to treat clients creatively and professionally in their own homes. It offers excellent work life balance with the ability to self schedule all appointments. The ideal candidate would enjoy the aspects of mobile therapy including driving and scheduling appointments to plan efficient travel days.

We offer electronic charting and excellent hourly pay. Vehicle mileage reimbursement is in addition to paid time and based on kilometers traveled. There is no unpaid time waiting in a clinic for clients to arrive, as your preparation and planning can all be done from home.

We look forward to hearing from you. Please email your resume to Tasha Voth at hometherapy.mb@gmail.com or call 204 261 8735
