MPA - Team Bio

Sandy is a business administrator who worked as a manager for a physicians' association for nearly 8 years.

She journeyed from Medellín, Colombia to Winnipeg in 2021 to pursue a two-year postgraduate diploma in Marketing at the University of Winnipeg.

Her character is marked by enthusiasm and resilience, alongside a profound sense of belonging and affection for both her work and every new endeavor she embarks upon in life.

With her sights set on the long term, she envisions a lasting stay in Winnipeg.

She is the person behind all office tasks and website administration, as well as posting advertisements. Sandy is looking forward to helping.
