

Workers Compensation Board of Manitoba (WCB)

Applications are now being accepted for the following:

WCB Physiotherapy Advisor - up to two positions

Application deadline: Friday October 30, 2026

The healthcare department of the WCB requires the services of up to two contracted physiotherapy advisors who can devote 14-18 contracted hours per week to the role.

Job summary

What will you do?

- Consult on physiotherapy matters and provide written opinions when requested to assist with adjudicator and case management decision making on claims for workplace injuries and illnesses.
- Review physiotherapy treatment extension requests received by physiotherapists in the community.
- Communicate verbally and in writing with treating healthcare practitioners about relevant medical matters for workplace injury and illness claims, including when there are conflicting opinions.
- Perform physical examinations of injured workers when required to assist in the formulation of physiotherapy opinions and for the purposes of Permanent Partial Impairment assessments.
- As needed, participate in the development and delivery of education and training as it relates to physiotherapy for internal claims staff and the external healthcare community, and other special projects related to program development.
- Participate in department meetings.

What the role offers:

- Regular office hours.
- Flexible schedules.
- Diverse and challenging work focused on workplace injuries and disability management.
- Excellent income potential without the administrative burden and overhead of private practice.

We are looking for someone with:

- 5+ years' experience as a private practice physiotherapist.
- Excellent verbal and written communication skills; ability to communicate about physiotherapy matters with treating practitioners in the community, including cases with conflicting health care evidence and opinions.
- Licensed and in good standing with the College of Physiotherapists of Manitoba.
- Proficient in electronic communication tools and general computer use
- Experience managing musculoskeletal injuries, functional capacity assessments and supporting return to function and work following an injury are considered assets.
- Completion of other training in functional assessments or occupational rehabilitation are considered an asset.

Physiotherapy Advisors are expected to spend the majority of their consult time in person in our Winnipeg office.

To be considered, please submit your cover letter, resume or CV to the attention of:
